

# Culling the Research in the COVID Quandary

Lorraine Oley Cull, RN- MSN Nursing Administration 3/18/2022

**Goal for creating this document** – Sharing resources I have found valuable on the COVID narrative from the “other side.” I observed Mainstream Media around the world had one echo message 24/7/365. Being in healthcare for over 40 years I knew there had to be more information on both sides as was always pursued in my healthcare career. Something was different with Covid. I started observing censorship of doctors who were saving lives with outpatient treatment and other professionals’ research. I observed a lack of knowledge on COVID from both professionals and lay people. Thus started my self-imposed research on where was the science, data, and evidence. I am sharing my efforts to help others on a journey for veracity to make informed decisions to include some areas of concern on whether to 1. Have informed consent, with no coercion, to take an Emergency Use Authorization experimental mRNA injection 2. Informed consent with no coercion for Emergency Use Authorize PCR test for COVID that FDA identifies does not specifically test only for SARVS Cov 2, and 3. Emergency Use Authorization with no coercion for masks.

When properly worn it reduces potential contact by the wearer to blood and bodily fluids but DOES NOT eliminated the risk of contracting any disease to infections. Change mask immediately if splashed with blood or bodily fluids. Non-medical use.

A picture from my mask box

**How I got here using my 40 + years in nursing - Experience includes:** - Veteran USAF Captain Flight Nurse/nursing administration/clinical informaticist nursing informatics & regulatory implementation electronic health records/quality & peer review & regulatory (JCAHO, URAC, HEDIS, CMS) in acute care and insurance health plans/patient safety/adjunct faculty BSN program/quality newsletter and web author **Bedside--Med Surg Unit/ICU/CCU/Recovery Room/ USAF flight nurse** qualified in 3 fixed wing C-9, C-130, C -141/surgical oncology/orthopedic clinic & surgery/clinical instructor LVN program, patient education. **Certifications:** Certificate Health Information Science -University of Texas-Houston / GE Certified Change Agent / Completion University of Houston Law Center 40-hour Mediation Training. **Prior Certifications** RN-BC Nursing Informatics (2016-2021), Certified Professional Healthcare Quality (2016-2018), Certified Professional Patient Safety (2017-2020).

---

## A. Resources for Covid Information

### 1. FDA document confirms PCR not just testing for SARs-COV-2 - CDC 2019 Novel Coronavirus (nCoV) Real-Time RT-PCR Diagnostic Panel - Instructions for Use (fda.gov)

“PCR positive indicative of active infection with SARS-COV-2 BUT DO NOT RULE OUT BACTERIAL INFECTION OF CO INFECTION WITH OTHER VIRUSES” page 3. Retrieved 3/17/2022@ <https://www.fda.gov/media/134922/download>

Results are for the identification of SARS-CoV-2 RNA. SARS-CoV-2 RNA is generally detectable in upper and lower respiratory specimens during infection. Positive results are indicative of active infection with SARS-CoV-2 but do not rule out bacterial infection or co-infection with other viruses. The agent detected may not be the definite cause of disease. Laboratories within the United States and its territories are required to report all results to the appropriate public health authorities.

Negative results do not preclude SARS-CoV-2 infection and should not be used as the sole basis for treatment or other patient management decisions. Negative results must be combined with clinical observations, patient history, and epidemiological information.

Testing with the CDC 2019-nCoV Real-Time RT-PCR Diagnostic Panel is intended for use by trained laboratory personnel who are proficient in performing real-time RT-PCR assays. The CDC 2019-Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel is only for use under a Food and Drug Administration’s Emergency Use Authorization.

<sup>1</sup> For this EUA, a healthcare provider includes, but is not limited to, physicians, nurses, pharmacists, technologists, laboratory directors, epidemiologists, or any other practitioners or allied health professionals.

## 2. Experimental mRNA injections only have Emergency Use Authorization Clinical trials data not complete and there is no liability for injuries from the experimental mRNA injection.

**2. (a) Pfizer BIO Tech Trial Results of safety and efficacy study to be completed February 2024.** “Study to Describe the Safety, Tolerability, Immunogenicity, and Efficacy of RNA Vaccine Candidates Against COVID-19 in Healthy Individuals.” Retrieved 3/17/2022@  
<https://clinicaltrials.gov/ct2/show/NCT04368728>

Study Type : Interventional (Clinical Trial)  
Estimated Enrollment : 43998 participants  
Allocation: Randomized  
Intervention Model: Parallel Assignment  
Masking: Triple (Participant, Care Provider, Investigator)  
Primary Purpose: Prevention  
Official Title: A PHASE 1/2/3, PLACEBO-CONTROLLED, RANDOMIZED, OBSERVER-BLIND, DOSE-FINDING STUDY TO EVALUATE THE SAFETY, TOLERABILITY, IMMUNOGENICITY, AND EFFICACY OF SARS-COV-2 RNA VACCINE CANDIDATES AGAINST COVID-19 IN HEALTHY INDIVIDUALS  
Actual Study Start Date : April 29, 2020  
timated Primary Completion Date : February 8, 2024  
Estimated Study Completion Date : February 8, 2024

**2. (b) Moderna Trial Results of safety and efficacy study to be completed October 27,2022.** “A Study to Evaluate Efficacy, Safety, and Immunogenicity of mRNA-1273 Vaccine in Adults Aged 18 Years and Older to Prevent COVID-19.” Retrieved 3/17/2022@  
<https://clinicaltrials.gov/ct2/show/NCT04470427>

Study Design Go to   
Study Type : Interventional (Clinical Trial)  
Actual Enrollment : 30000 participants  
Allocation: Randomized  
Intervention Model: Parallel Assignment  
Masking: Quadruple (Participant, Care Provider, Investigator, Outcomes Assessor)  
Masking Description: Part A is observer-blind. Part B is open-label; participants can request to be unblinded by scheduling a Participant Decision clinic visit. Part C offers participants the option to receive a booster dose for those participants who received at least one dose of mRNA-1273 in the study.  
Primary Purpose: Prevention  
Official Title: A Phase 3, Randomized, Stratified, Observer-Blind, Placebo-Controlled Study to Evaluate the Efficacy, Safety, and Immunogenicity of mRNA-1273 SARS-CoV-2 Vaccine in Adults Aged 18 Years and Older  
Actual Study Start Date : July 27, 2020  
Estimated Primary Completion Date : October 27, 2022  
Estimated Study Completion Date : October 27, 2022

**2. (c) AstraZeneca - Trial results of safety and efficacy to be completed Feb 14, 2023** “Phase III Double-blind, Placebo-controlled Study of AZD1222 for the Prevention of COVID-19 in Adults” Retrieved 3/17/2022@  
<https://clinicaltrials.gov/ct2/show/NCT04516746>

Study Design Go to   
Study Type : Interventional (Clinical Trial)  
Actual Enrollment : 32459 participants  
Allocation: Randomized  
Intervention Model: Parallel Assignment  
Intervention Model Description: Participants are assigned to one of two or more groups in parallel for the duration of the study.  
Masking: Quadruple (Participant, Care Provider, Investigator, Outcomes Assessor)  
Masking Description: Double Blind: two or more parties are unaware of the intervention assignment.  
Primary Purpose: Treatment  
Official Title: A Phase III Randomized, Double-blind, Placebo-controlled Multicenter Study in Adults, to Determine the Safety, Efficacy, and Immunogenicity of AZD1222, a Non-replicating ChAdOx1 Vector Vaccine, for the Prevention of COVID-19  
Actual Study Start Date : August 28, 2020  
Actual Primary Completion Date : March 5, 2021  
Estimated Study Completion Date : February 14, 2023
